Conference room C307/500 has been established as the Situation Room for Monday August 13th. (We have this room till 1:00PM so check your systems early.) This is the room where you will report and log all problems or concerns related to the ethernet rollout. We will have a team of people (IGS Deskside, WBS Deskside, Ethernet Project Team, Hall Captains, and IGS Network Support) available to assist with resolving any problems related to the ethernet rollout. You will be expected to enter your problem into the log and they will be handled on a first come first serve basis. We also have ethernet switches, cards, cables, driver files and baluns available if you did not receive them prior to Monday.
